

Vox Assure

Providing flexible options to

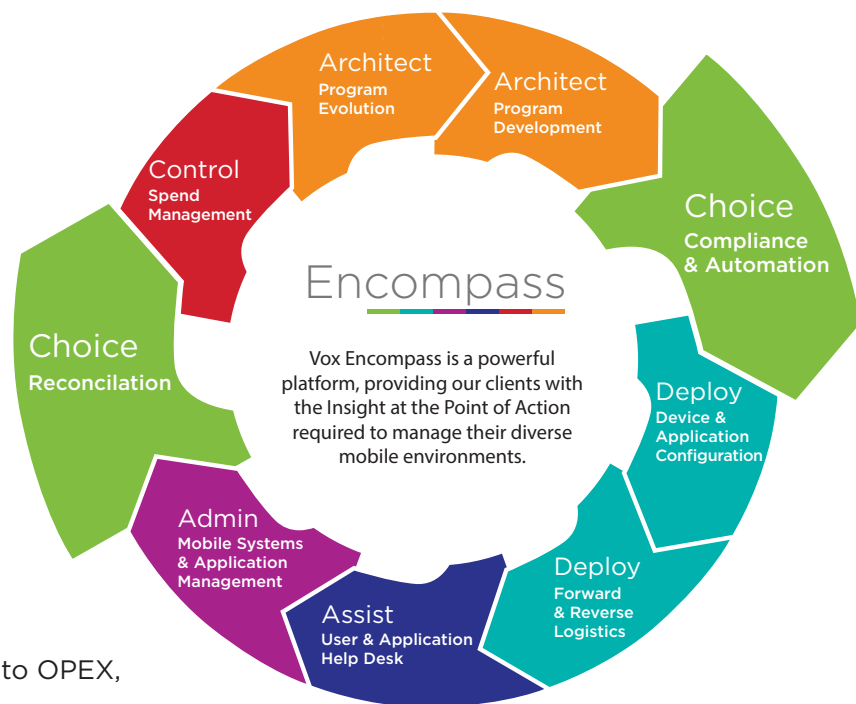

acquire, protect and retire your mobile fleet –

So you don't have to.

ACQUIRE

Device as a Service

- **What is it?** Lease devices for flexible, contracted terms as you need them - avoiding traditional device purchase models that require upfront purchase and costly device retirement processes.
- **How do we Support it?** Providing competitive leasing options - available in flexible terms - to meet the goals of your mobile initiative.
- **Key Benefits:**
 - Flexibility to deploy assets as needed (ie, flex up or down based on workforce).
 - Shifting device procurement from CAPEX to OPEX, driving increased cost stability.
 - No need to forecast the need for future device refreshes as they are built into the services plan.
 - Greater flexibility and lower costs can free up IT staff to focus on tasks beyond the day-to-day management of devices.
 - Gain transparency on what your mobile service and hardware really costs.

Vox Assure

PROTECT

Accidental Damage & Insurance

- **What is it?** Best-in-class device protection from damage and failure, resulting in minimal downtime in the event the unexpected happens.
- **How do we Support it?** Available as a managed service, the burden is on us to facilitate every aspect of your repair and replacement process. With a single call or click of an app, Vox Mobile will have your workforce up and running in no time, to include same day onsite repair.
- **Key Benefits**

RETIRE

Device Recycling, End of Life & Compliance

- **What is it?** It's more than a checkbox - it's a resource-intensive program, requiring full data security and regulatory compliance. Let us manage, monitor and control all aspects of your recycling program.
- **How do we Support it?** Our asset management software knows the minute someone has exited the enterprise, initiating communications to ensure the device is returned, recycled and/or disposed of in the most advantageous way.
- **Key Benefits:**
 - Automate your program so your organization is able to focus on innovation for the future.
 - Maximize your cost recovery.
 - Peace of mind that your organization is compliant with data security and regulatory standards.
 - Redeploy devices where the need fits.
 - Environmentally friendly.
